## A Prognostication.

There will be but two Eclipses, and both of the Sun; this Year 1669. The first on Tuesday the 20. of April about 5. in the morning, to be seen towards the Equinoctial circle. The second on Thursday the 14. of October about 9. at night, to be seen in the south parts beyond the Equinoctial circle. I wish we could have a true calculation of it from the Isle of Pines.
